

## SEVERAL HURT IN SERIES OF MISHAPS

Otis Miller of Richland Township  
Most Seriously Injured When Au-  
tomobile Upsets

### THREE OTHER ACCIDENTS

Reckless Drivers Crash into Ma-  
chine Driven by the Rev. J. T.  
Scull Sunday and Escape

Several people were hurt, one seriously, and a number of others narrowly escaped serious injury in a series of accidents in Rushville and vicinity over the week end.

The one that ended the most disastrously occurred near Andersonville late Saturday evening when a five passenger Chalmers touring car belonging to and driven by Otis Miller of Richland township turned over west of Andersonville at a cross roads. Mr. Miller lost control of the car and it went into the ditch.

With Mr. Miller were Dr. Lowell M. Green and son Thomas of this city and Mr. Miller's son Charles, all of whom were scratched and bruised. Mr. Miller's hands were pinned under the car and were badly cut and bruised and several bones were broken.

Thomas Green suffered a slight flesh wound in the back and was bruised, but will suffer no ill effects from the injury, it is believed. Dr. Green has a few scratches on the face to show for his experience and Charles Miller was only slightly hurt.

Mr. Miller was brought to Dr. Frank H. Green's hospital here for treatment in Dr. Green's car, which was following a short distance behind and was being driven by Mrs. Green. Mrs. Miller and daughters and Lowell Green, Jr., were riding with her. Several stitches had to be taken in his hands to close the wounds.

The top of the automobile was smashed, the windshield bent and broken, the steering wheel and rod bent, the front axle bent and the fenders on the left side were smashed.

A five passenger Nash sedan owned and driven by the Rev. J. T. Scull of this city, district superintendent of the Methodist Episcopal church, was struck by a new Ford coupe, evidently a stolen car, Sunday afternoon about one o'clock, three-fourths of a mile east of Alquina, in Union county, and the men who were driving the car escaped in a corn field.

There were six people in the Scull car, including members of his family but none of them was hurt. Their car was not even turned over, but the running board on the left side was torn off and the left rear fender was twisted and bent.

There was a clearance of approximately three feet between the two cars as they approached, according to occupants of the Scull machine, but just as the Ford reached the heavier automobile driven by the Rushville man, it careened to one side and struck the sedan just in front of the rear wheel.

## FREIGHT CAR IS DERAILED

Traffic on C. I. & W. Detours Until  
Repairs are Made

The derauling of a freight car on the C. I. & W. lines this morning caused a slight delay in the regular schedule and necessitated the switching of the morning passenger trains due in this city at 10:48 and the afternoon train, over the Pennsylvania and Big Four tracks and the "Y" near the Innis, Pearce factory, back to the main lines, west of this city.

The track on the double switch located near the passenger station in west Fourth street, is too wide and that defect, combined with the heat and the recent oiling of the tracks, is thought to have been the cause of the derailment. Several times in the last two or three weeks freight cars have been derailed here but this time one of the rails in the switch was torn loose and completely blocked the way until aid from Connersville arrived. The main track was not damaged and trains could pass over it this afternoon but the switch is useless until a new rail is put in.

## TWO FINED FOR INTOXICATION

Jess Ridout and Raymond Finney  
Plead Guilty—Suspend Sentence

Jess Ridout and Raymond Finney, both of this city, were arrested late Sunday afternoon at the Circleville bridge, and were arraigned this morning in police court on charges of intoxication.

Each pleaded guilty, and were fined \$10 and costs by Mayor Thomas, amounting to \$40 each, and both fines were stayed. In the case against Finney, a suspended sentence of 4 months at the state case against Finney, a suspended sentence being made during his good behavior. The arrests were made by Sheriff Hunt, and Police Chief Blackburn.

## SUNDAY HOTTEST DAY DURING JULY

New High Mark For Month Reached  
When Temperature Mounts to  
94 Degrees

Mercury Drops Sunday Evening Following Violent Storm in State—  
13 Dead in Midwest

More scattered thundershowers are predicted for tonight and Tuesday, according to the weather department, although no relief from the heat is contained in their prediction.

Sunday was among the hottest days this summer and holds the record for July, reaching 94 degrees, according to Elwood Kirkwood at Mauney.

Several thundershowers late Sunday in the vicinity of Indianapolis, cooled the atmosphere here several degrees and today it was also a few degrees lower than Saturday and Sunday.

Scattered showers are believed to be poor relief bringings, as it has been predicted that the present heat wave will be broken only by a good, general rain, covering a wider area. Rush county was 9.16 inches short of rainfall on July 1, according to Mr. Kirkwood, but this has been lessened some by rains of the past few days. The shortage is great, and much rain is needed to overcome it, in order to maintain a normal amount of rainfall during a period of a year.

Chicago, July 13—The middlewest today counted its dead at 13 and estimated its property damage at more than \$1,000,000 in the wake of wind and electric storms and a severe heat wave.

Heaviest property loss was in central Indiana where a terrific wind and rain storm ripped roofs from houses, uprooted trees, levelled telephone and telegraph poles and flooded scores of cellars.

Five persons were drowned in Iowa as thousands sought relief from high temperatures and extreme humidity.

Four persons succumbed from the heat in St. Paul and Minneapolis, where the mercury climbed to 92.

Two were drowned and two died from heat prostrations in Chicago.

Indianapolis, July 13—Central Indiana today took count of the damage done late yesterday by the most violent wind storm that has swept the territory in more than half a century.

Early estimates indicated the damage to property and growing crops would be far in excess of one million dollars.

A young boy was killed by lightning during the storm when he took refuge under a tree near Nashville, Indiana.

### EMERGENCY OPERATION

Scott Piper, eleven-year old son of Mr. and Mrs. Everett Piper of Northwest of Milroy, was operated on for emergency appendicitis Sunday afternoon. His condition is regarded as satisfactory.

### S. S. MEETING

All officers and teachers of the Sunday school of the First Presbyterian church are urged to meet the pastor in the parlors of the church tonight at 7:30 o'clock to make plans for the school.

## CITY DEPARTMENTS ARE IN SEPARATE QUARTERS

Policemen and Firemen Each Have  
Own Headquarters in the City  
Building

### REMODELING COMPLETED

The Rushville police and fire departments, after having shared the same quarters since the two organizations were established in the city, were today officially divorced as police took up their new headquarters in the city hall, completely separated from the fire department.

The new headquarters were made possible by the remodeling of the city hall, which has been in progress all summer, and the old hall now on the second floor, has been converted into modern office space for the police.

One of the principal things that concerns the public is the fact that the telephone number formerly used by both departments also is separate. People wanting the police must call 2113, and for fire alarms, 1065. The police number is the same as the one listed in the directory as the mayor's office. Firemen were jubilant today with the change, because they are bothered all hours of the night with calls for police, and under the new arrangement, only fire calls and calls for firemen will come in over the 1065 phone.

### ANGLERS CLUB TO MEET

The Anglers Club will meet tonight at Gunn Haydon's hardware store at 7:45, it was announced today. There will be a short business session and the meeting will not last long. Every member is asked to be present.

## Man 84 Years Old Makes Hand in Oats Field All Day

In spite of torrid weather and an age well past maturity, Lewis Meer, 84 years old, a farmer living on the George Reeves farm, four miles west of town, tramped through the fields of oats Saturday most of the day and displayed that he was still good for hard work. Only after he had shocked sixty-five shocks of oats in the intense heat did Meer call it a day and then he said that he could work that hard again. No ill effects were felt by the aged farmer Sunday after his day in the field.

## Rags and Sacks May be Removed From Faucets

People Who Have Been Frightened  
by Reports of "Worms" in the  
Water and Fears of Typhoid Fe-  
ver May Drink It in Safety. Re-  
port Says It is Pure

All of the rags and sacks that have been tied over the faucets to catch the "worms" in the city water, can be removed with safety now and those who have been imagining typhoid germs were in the water, can drink all they want of it and suffer no ill effects, as the water has been analyzed and found pure.

Reports spread last week that worms were found in the city water, and an investigation was made at the house where the worms were found, with the result that it is believed a leaky valve from a cistern caused them to get in the pipes, only at the residence where they were found.

As a matter of safety, samples of the city water were sent last week to the state department, and additional samples sent for four consecutive days. In all cases the word came back that the water was satisfactory.

In order to completely satisfy everybody, Superintendent Mahin Sunday morning shortly after midnight and when everyone was believed to have completed their "Saturday bath," drained the reservoir at the plant. The large tank that holds the city water before it is pushed out into the mains, was emptied and in the presence of several councilmen and others, it was scoured with lime and cement solutions. Not a worm was found in the basin and the sediment also was very scant.

After the tank had been cleaned, the water was turned in again and it was refilled with water from all of the wells. The fire hydrants at the dead end of the mains also were opened up and the lines were drained in that manner, so that any sediment or other collections were flushed out.

The state department in its report states that the water is unusually good here.

### POLICE TAKE UP PONY

The police have in their custody a small pony that has probably left home, and after almost a week of being penned up, is no doubt anxious to return to its owner. Anyone missing a pony can have it by consulting with Orin Blackburn, chief of police.

## QUAINT COUNTRY LAWYER SETS OFF THE FIREWORKS

Dudley Malone Takes Offense at  
Remarks of Gen. Ben McKinsie  
in Scope Evolution Trial

### JUDGE SMOOTHS IT OVER

(By United Press)  
Dayton, Tenn., July 13—A quaint old Tennessee country lawyer with his glasses on the end of his nose, touched off some verbal fireworks at the resumption of the Scopes trial today.

Dudley Malone of New York, one of the defense attorneys, leaped to his feet in angry offense when General Ben McKinsie, a local prosecutor who is assisting the prosecution, referred to the apparent inability of "these here New York lawyers" to understand the anti-evolution law of Tennessee, "which is so simple a sixteen year old county school boy gets it."

Malone, indignant, demanded defense against "contemptuous" reference to himself and his colleagues and Judge John T. Raulston smoothed things over by apologizing and saying perhaps "the foreign counsel did not understand Gen. McKinsie as well as the home folks did."

The outburst came during argument over motion by the defense to dismiss the indictment against John Scopes, Attorney Neal and Hayes, speaking for the defense.

### ODD FELLOWS NOTICE

Franklin Lodge No. 35 I. O. O. F. will have the first degree Wednesday evening with fifteen candidates. All initiates who have not received the first degree are urged to be present.

## SAYS WEEDS SHOULD BE CUT

Mayor Thomas Calls Attention to  
Ordinance on This Subject

Mayor Walter R. Thomas called attention today to the ordinance concerning the cutting of weeds in the city, and the police have been notified to serve notice on the property owners to cut them, or suffer the penalty of having the city do the work, and charged to their tax duplicate.

The heavy rains for the last two and three weeks have made the weeds shoot up in the air at a fast clip. The ordinance applies to all weeds on vacant lots, yards, or other premises within the city. A few days will be given for people to comply with the ordinance.

## EIGHT DROWN IN INDIANA SUNDAY

One Person Is Killed and Several  
Suffer Minor Injuries in Auto-  
mobile Accidents

### ACCIDENT TOLL IS LIGHT

Three Members of One Family Lose  
Lives in White River — Auto  
Collides With Bus

Indianapolis, Ind., July 13—Eight persons were drowned in Indiana seeking relief from the terrific heat wave which blistered the state over the week end, reports showed today.

One person was killed and half a dozen suffered minor injuries in auto accidents. The auto casualty toll was the lightest of any week end this summer.

Three members of the family of Robert Brown, 48, Green county farmer, died in a treacherous hole in White river when the family went wading on the way home from Sunday school.

Brown's wife stepped into a hole and screamed for help. He ran to aid her and both went down together. Their eight-year-old son, Carlos, became excited and stepped into deep water and drowned.

Another son witnessed the tragedy from the bank.

Frederick McPherson, an expert swimmer, suffered a heart attack in a park pool at Marion and was drowned.

His parents and two brothers were watching from the bank as he went under. The body was recovered in a few minutes but efforts to revive him with a pulmonary failed.

Harry Hogswood, 25, was seized with cramps while bathing in an abandoned gravel pit near Elwood and drowned.

Charles Sprague, Jr., 9, was drowned in the waters of Lake Michigan at Michigan City. Rullo Mann, 19, drowned in Pretty Lake near Plymouth and John Rowan, 9, son of Mr. and Mrs. J. V. Rowan, of Cleveland, was drowned in Oliver lake near Kendallville.

Virginia Hoyer, 6, died yesterday from injuries received when an auto driven by her father, D. M. Hoyer, collided with a Red Ball bus near Greenfield.

The girl's mother was badly injured.

Several were slightly hurt in traffic accidents in Indianapolis.

## THREE ESCAPE FROM JAIL

Peru, Ind., July 13—Three prisoners made their escape today from the Miami county jail here early today by battering a hole in the brick wall of the attic and swinging down by a rope made of sheets.

### WHAT STARTED QUARREL

A. R. Herkless, local contractor, who was fined last Thursday night for assaulting George Bell, says that the quarrel which resulted in Bell filing a charge against him, was not over following plans and specifications on a bridge he was building, but started over personal matter relating to the use of a runaround at the bridge. Prosecutor Ketchum confirmed what Herkless said was the cause of the trouble. Bell reported to the Daily Republican that the dispute started over following plans and specifications.

## PROGRAM GIVEN BY VACATION PUPILS

Demonstration by Bible School Students at Union Service at First Presbyterian Church

### BACK TO PARK NEXT SUNDAY

Customary Services at All Churches in the Morning—College Official Speaks at Christian

A demonstration program by the pupils of the Daily Vacation Bible school of the First Presbyterian church was given at the union church services Sunday evening at the First Presbyterian church.

The union services will be resumed at the Memorial park coliseum next Sunday, a change having been made in the program yesterday due to the closing exercise of the Daily Vacation Bible school.

The program by the pupils of the school, which has been in session during the past five weeks, illustrated some of the methods of teaching, the lessons learned and the work done. It was a revelation to many people who had no conception of the value of the vacation school course.

The program was enjoyed by a large crowd of people. The atmosphere cooled appreciably Sunday evening about six o'clock and made it possible to attend an indoor function without suffering with the heat.

The church was opened at five o'clock for the convenience of persons who wanted to see the display of craftwork before the services began. The work of the children was praised for their endeavors during the period of the school showing practical lessons learned.

Regular services were held at all of the churches Sunday morning and pastors filled their pulpits with the single exception of the Main Street Christian church. The charge was supplied by John W. Atherton, financial secretary of Butler college, who spoke in the absence of the pastor, the Rev. B. F. Cato, who is on vacation.

He presented the cause of the church college, showing its value in preventing the trend toward agnosticism, which is so general in the larger state universities, which are not bound by any religious standards.

### First Presbyterian

The Rev. Gibson Wilson used for his theme Sunday morning, "Summertime Blessings in the Church," and his text was from Ezekiel 34: 26: "I will make them and the place round about my hill a blessing; and I will cause the shower to come down in its season; there shall be showers of blessing."

He spoke in part as follows: "There is no reason why the church should wait until the winter season for its times of spiritual refreshment. The spiritual meaning of this text is that out from Zion, the church, God will cause his blessings to flow."

"Let us notice some of the signs of drought in the church. When there are no in-gatherings of souls the inference is that there is a spiritual drought. When prayer is a mere utterance of words and not a burden, when there is a tendency to compromise with sin and enjoy the things of the world first, there is great evidence of need of spiritual refreshing."

"When the church is not interested in the giving of her gifts to promote the kingdom, when the people

## G. E. SOCIETIES WILL MEET

Rushville Young People to Join in Picnic at Flatrock Cave

The Christian Endeavor Societies of the Presbyterian churches of Rushville, Greensburg, Shelbyville and Franklin will meet at Flatrock cave Wednesday afternoon and evening of this week.

All young people of the First Presbyterian church of Rushville who are planning to go should report at once to the committee, Richard Morris, or Louis Smith. Any person who will furnish a car will also report to the committee. All who go should take some food for lunch. It is desired that there be a large attendance of young people.

**MRS. ROSANNA HUGHES DIES**  
Widow of Henry Hughes, Local Colored Woman, Expires Sunday.

Mrs. Rosanna Hughes, widow of Henry Hughes, colored, died Sunday night about 10:30 o'clock at the family home, 720 West Ninth street. She was 8 years of age May 12. Death was caused from uremic poisoning, following a two weeks' illness.

She is survived by one son, Fred Hughes of this city, and a daughter, Mrs. Anna Boone of Detroit. Funeral services will be held Tuesday afternoon at two o'clock at the house, in charge of the Rev. Mr. Hays, pastor of the Second M. E. church. Burial will be made in East Hill cemetery.

**Personal Wanted \$1,000**

By party in Rushville for purpose of expansion in good solid going business, with great future. Not an experiment.

Can give good security and references backed by ample collateral to cover. Also local bank reference. Best interest.

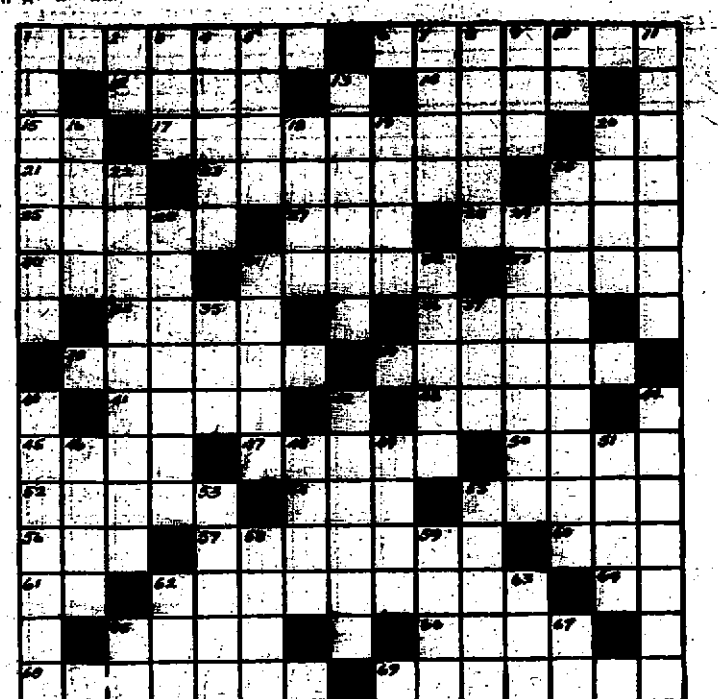

This amount of money at this time will almost mold the future of a deserving citizen of Rushville, who needs the assistance of some public spirited individual that would be willing to let this amount stand for one year.

Investigate this at least as it will not obligate you or annoy you in case you don't care to consider it after an interview.

—Mr. and Mrs. Roy Perkins of Aurora, Ind., were visitors in this city Sunday with friends and relatives.  
—Miss Marjory Burres of Ft. Wayne, Ind., is in this city visiting with Raymond Lakin through the week.  
—Miss Janet Dean and Donald Dean were visitors in Indianapolis today. Mr. Dean takes clarinet lessons.

## SKINNY MEN Thin Men Run Down Men Nervous Men

You probably know that Cod Liver Oil is the greatest flesh producer in the world.  
Because it contains more Vitamins than any food you can get.  
You'll be glad to know that Cod Liver Oil comes in sugar coated tablets now, so if you really want to get 10 or 20 pounds of solid health-flesh on your bones and feel well and strong ask Pitman and Wilson for any drugist for a box of McCoy's Cod Liver Oil Compound Tablets.  
Only 60 cents for 60 tablets and if you don't gain five pounds in 30 days your drugist will hand you back the money you paid for them.  
It isn't anything unusual for a person to gain 10 pounds in 30 days.  
"Get McCoy's, the original and genuine Cod Liver Oil Tablet."

—George Cohen, George Kyle, Hays Readle, O. R. Cartmel, Floyd Roth, Walter Stevens, Loren Hunt, Gene Kelley, Vernal Trennepohl, Farrell Conover and Howard Brecheisen are attending the annual national convention of the Phi Delta Kappa fraternity in Louisville, Ky.

## Never Talks

Fuller Schellenger, like prisoner at the Nebraska State Penitentiary, hasn't spoken one word for 10 years. This is because he "talked himself into prison," confessing a murder when he thought he was dying, only to recover and be convicted and sent to prison. He answers all questions by shaking or nodding his head.

## FOR RANSOM

Here are the principals in a strange kidnaping plot revealed at San Francisco. Bliss Baker (above), young University of California student, planned to kidnap Mrs. D. C. Jackling (below), and hold her for a \$50,000 ransom. The police discovered the plot before it could be brought into execution. Mrs. Jackling is the wife of a wealthy copper magnate.

—Jesse Poe spent Sunday in Indianapolis on business.  
—Floyd French was a visitor in Ravenwood, Ind., Sunday.  
—Charles F. Wilson transacted business in this city today.  
—James Arnold living west of the city spent Sunday in Indianapolis.  
—William Huffer of Arlington was a visitor in Indianapolis Sunday.

—Mr. and Mrs. Perry Simmons of Muncie, Ind., visited here with friends Sunday.  
—Mr. and Mrs. Carl Tingle of Connersville visited with relatives in this city Sunday.  
—Miss Flo Madden of Alexandria, Ind., is the guest of Miss Salome Schriebe in this city.  
—Mr. and Mrs. William Knecht, Jr., spent Sunday at Indianapolis visiting relatives and friends.  
—Anthony B. Hood living north of the city spent Sunday at Riverside, Indianapolis, with friends.  
—Mrs. Osro Farthing of this city and Mrs. Charles Frazier of Connersville spent Sunday in Indianapolis.

—Mr. and Mrs. Harry Jones and Mr. and Mrs. Wilbur Wilson motored to Greensburg Sunday and spent the day.

## WALL INSULATION IMPORTANT FACTOR

In Erecting a Home, it Should be Built to Withstand the Cold, to be Truly Comfortable

### HOME BUILDING FASCINATING

Yet It Requires Much Thought, and Good Judgment Should be Used in Sealing It

Building a home is one of the most fascinating and companionable enterprises in life; and yet because of its newness and perhaps unfamiliarity, it is a matter upon which one is quite likely to make mistakes in judgment which prevent the full enjoyment of the home after its completion.

It helps, at this time, when information of a technical nature is literally thrust upon you, to keep in mind the real vital reasons for home building. From the time that man first erected a permanent abode on down through the ages the first concern, the vital essential of home has been shelter—protection against the winds and cold, the snow, rain and heat.

This is the primitive principle of protection—the age-old reason for home building. And through it is now hidden away in the walls and roofs of houses, concealed and subdued by the beauties of architecture, conveniences of arrangement, and the niceties of interior decoration, this matter of protection against heat and cold has lost none of its potency.

Houses to be truly homes must be comfortable. They must be so built that the winter cold and the summer heat will be kept out, so that fuel bills will be reasonable and the cost of heating equipment not exorbitant. Houses in which these vital matters are overlooked are no more homes today than in years gone by. You see them—"heartbreak houses"—some one has called them—for sale every day. All the time and money, all the thought and care that was put into them has been wasted, thrown

## Elected

Mrs. Mary McKimmes of Brookline, Mass., is the new president of the National Education Association. She was elected at the annual convention in Indianapolis, winning out over Miss Cordelia S. Adair of Richmond, Ind.

away, because the vital matter of comfort was overlooked. You should insulate your home.

### THOMAS HURST DIES

Relatives here have received word of the death of Thomas Hurst, age 60 years, which occurred Sunday evening at the late residence in Flemingsburg, Ky., following an illness of heart trouble. He was well known here, having visited his sister Miss Lydia Hurst, on a number of occasions. He also has several cousins living in the county. No word was received as to the time of the funeral, but Miss Hurst left this morning for Flemingsburg, where she will attend the services.

A New Commandment:—Jesus said: A new commandment I give unto you. That ye love one another: as I have loved you, that ye also love one another. By this shall all men know that ye are my disciples. John 13: 34-35.

Prayer: Thy love, O God, is broader than the atmosphere of our minds. Help us to follow on, to know and comprehend and be and do.

## Quacks and Fakes

There are all sorts of quacks and fakes in the world that may be classed under many headings, but the one that appeals to the automobile owner seems to have the largest following.

The American Automobile association has issued a warning to the motoring public to beware of mushroom organizations that spring up each year and not only gather in thousands of dollars from the motorist, but ruin the confidence that the motoring public has in its own worthwhile organizations.

The safest policy for the automobile owner before parting with money in any organization is to investigate. A high sounding name and a "slicker" salesman does not constitute a motor club.

A beautifully printed piece of paper with a seal in one corner and a ribbon in the other by no means makes a government bond; neither does it make a certificate of membership in a dependable organization.

Many of these automobile fakers operate through local people and thus obtain the confidence of the motoring public. They hide behind a garage man and by this means fool the public.

The wisest slogan for every automobile owner, when approached by a salesman for a motorists' organization is "before you invest, investigate."

## A Two-Edged Sword

Thomas A. Edison, veteran inventor, found the questionnaire, which he made famous, a two-edged sword, while celebrating with his business associates the forty-eighth birthday of "earned speech."

At a luncheon in connection with the convention, a speaker asked what were the seven qualifications for a leader of men beginning with "C." Everyone flunked, including the inventor.

The answer was charm, conscientiousness, character, competence,

courage, celerity and caution.

Whatever you may think of the answer to the question, if you racked your brain over Edison's questionnaire, you will find some delight in reading the report that Edison passed when the query was put to him.

As an inventor, Edison is a genius, the equal of whom the human race has never produced, but as a dealer in questionnaires, he is a fizzle.

Every man for his own calling!

## Mellon on the Job

Although away from Washington for the summer, Secretary of the Treasury Mellon is on the job. He has taken a house on the cool shores of Long Island, at which he conferred with the representatives of the Italian government regarding the funding of Italy's debt.

It is believed that at least four other countries will hold "parleys" as these conferences are called, with the Secretary of the Treasury concerning their country's indebtedness to the United States.

There is no doubt but the President's declarations in regard to the foreign debts have penetrated the minds of the foreign politicians who realize that the countries are alive to the fact that England's financial recovery was, in a great measure, due to her coming forward and making a satisfactory agreement with the United States regarding her debts. The funding of these European "bills payable" will assist, to quite an extent, in securing further tax reductions.

## FIFTEEN YEARS AGO TODAY

From Daily Republican

Wednesday, July 13, 1910

The eight little girls of this city who sold lemonade here a few weeks ago, the proceeds to go to the Indianapolis Star Summer Mission fund, broke into print today their pictures appearing in the Star this morning.

The girls were Marjorie Thomas, Ethel Handy, Gladys Bebout, Kathryn Giffin, Dorothy Mulno, Mary Louise Poe, Katherine Wooden and Mary Louise Bliss.

Joe Dickman, the good natured furniture doctor, escaped what might have been serious injury this morning when he was thrown from his bicycle by the handle bars slipping out of place. He was riding on Third street near Main when the handle bars slipped through their socket and this threw him to the ground quite heavily, but the only injuries were a few bruises and scratches.

The Rushville High School Alumni association is now a permanent organization after years of effort on the part of old high school graduates. The following temporary officers were chosen: Birney Spradling, '04, president; Roy Harrold, '04, vice-president; Miss Marguerite Naezelholzer, '07, secretary, and Miss Helen Black, '10, treasurer.

Mrs. Owen Kinetid, Miss Florence Conner of Muncie, Mrs. Elizabeth Bart and daughter Miss Minnie spent the day at Laurel and Brookville.

The Misses Ruth Aldridge and Hollie C. Mock will go to St. Paul Saturday to be the guests of friends for a few days.

Miss Lou Keegan of Crawfordsville will come Friday to be the guest of Mrs. Harriet Plough.

Mrs. Earl Riley, who had an attack of appendicitis, is convalescing. Mrs. Herman Tompkins underwent an operation today at Sexton's sanitarium.

Miss Ruth Aldridge will entertain the Vesperian Club at her home in Perkins street Thursday in honor of Miss Grace Mulligan of Chicago, who is the guest of Miss Esther Black.

Mrs. Fred Caldwell will entertain the Social Dozen at her home in East Ninth street on next Thursday afternoon.

About fifty friends of Thomas Feltz delightedly surprised him at his home in North Jackson street last night, the occasion being his sixty-third birthday anniversary.

Mrs. H. E. Barrett entertained informally yesterday afternoon at her home in North Harrison street in honor of Mrs. G. H. Barrett.

A Wagging Tongue, Eh? (Cleveland Times-Commercial) Wayne B. Wheeler is the tongue of the water wagon.

Anderson—Anderson will have a new \$125,000 school building. Ernest R. Watkins has been named to draw the plans.

New Point—Louis Lacey, knows the new fire pumper at New Point is powerful. He drove his auto in front of the fire-station while they were practicing. He was nearly drowned.

## Stewart's Washington Letter

BY CHARLES P. STEWART  
NEA Service Writer

WASHINGTON—The Winlaw bill, regulating airplanes somewhat as autos are regulated now, will be strongly urged at the next session of Congress.

As good an authority as W. A. Mara, one of the country's foremost experts on the subject, says at least 90 per cent of today's aviation accidents are due to recklessness, inexperience or defective planes.

Aviation's friends want to cut out this 90 per cent, not only as a matter of present importance, but also because they believe America is on the eve of a period of great aerial development and don't want disasters to increase correspondingly.

With proper precautions, they say airplanes will be as safe as railroad trains.

## The Hodge Podge

By a Paragrapher With a Soul

Run down automobiles won't run up hills.

Generally the crowds on the street corners are not arguing politics. They are just trying to get across the street.

There are two sides to everything, except a mirror.

No one has ever discovered perpetual motion or a way to get to the top without beginning at the bottom.

People who can't are the first to criticize those who can.

The principal thing that worries the girl of today is that she will be the girl of yesterday tomorrow.

The only handicap about a flivver is that you can't identify the blamed thing after it is stolen.

If you go into a thing you think will fail, it probably will.

## AMUSEMENTS

"Lily of the Dust," Princess

It seems that in some way or other the name of Pola Negri in motion pictures is continually linked with tragedy. But "Lily of the Dust," a Mimitri Bachowitz production, her latest screen work for Paramount, like all great love stories has a happy ending. It is being shown at the Princess theatre today and Tuesday.

"Lily of the Dust," was adopted to the screen by Paul Bern from the novel, "The Song of Songs," by Hermann Sudermann and the stage play by Edward Sheldon. Ben Lyon, Noah Beery and Raymond Griffith head the cast playing in support of the star.

The story is one of a beautiful girl who lives in a little garrison town—a girl whose beauty and fascination for men almost leads to her downfall. Pola's portrayal of the part is said to be her greatest screen work.

George Arliss Picture

George Arliss will be seen in the photoplay version of his famous

## Wins Honor

Donald J. MacDougall, Canadian war veteran who was blinded by a wound at Courcellette in September, 1916, has been awarded a special Rhodes scholarship from the University of Toronto and has sailed to take up his studies at Oxford University.

## Washington Letter

THE proposed law calls for periodical inspection of planes (Mara tells of seeing them go up tied together in places with bay wire) and rigid examination of all candidates for pilots' licenses (Mara, again, mentions one who managed to get his bus into the air after two hours' training but was unable to land right side up).

Stunt flying is recognized as a legitimate part of a pilot's education, that he may know how to meet emergencies, but the Winlaw bill seeks to restrict it with passengers on board.

Now, as Mara puts it, "Any inexperienced dub of a pilot who cares to take a rattletap airplane off the ground and can persuade a passenger to fly with him for a consideration is free to do so. Crashes result."

The aviation interests don't care so much about the "inexperienced dub of a pilot," but they propose to prevent him from endangering others' lives.

A summer resort is a place where mosquitoes start in just where the flies leave off.

A man can't talk with his mouth full of hairpins, but a woman can talk with a pipe in her mouth.

By the time you find the needle in the haystack it is rusty and useless.

Many a man keeps his nose to the grindstone so his wife can turn her's up at the neighbors.

He who plays the horses may find he is the victim of horse play.

Lots of lips just made to kiss are made over again just after.

(Copyright, 1925, NEA Service, Inc.)

## SEVERAL HURT IN SERIES OF MISHAPS

Continued from Page One

Front of the left rear wheel.

The Ford went careening down the road for sixty or seventy-five feet and finally stopped when it hit the fence, but did not turn over. Both front wheels were broken and the fenders and radiator were smashed.

The two occupants of the coupe, who evidently did not want to disclose their identity, snatched a small handbag in the automobile, ran up the road a few rods and disappeared in a corn field.

The sheriffs of Union and Fayette counties were called to the scene of the accident and said that the coupe was evidently a stolen automobile. It was reported in Connersville Sunday night that the men had been arrested, but this could not be confirmed today.

An accident early Sunday evening in Main Street in which an Essex coach owned by Dr. M. C. Sexton and a Ford touring car belonging to Whitson Reynolds, were involved resulted in the slight damaging of the Reynolds car.

Reynolds and a companion were going South in Main but on the wrong side of the street, according to witnesses of the accident. Dr. Sexton, who was the only one in his car, was going north and was attempting to turn into the alley between Fifth and Sixth street. It is said, that he signaled Reynolds, indicating his wish to turn but that the latter did not see the signal and was hit. The Sexton car was not damaged to a great extent but the Reynolds car was pushed over the curbing into a telephone pole and both wheels were torn off and the front fenders were bent.

A Ford coupe occupied by two Arlington citizens, whose names were not learned, turned over on the Milroy road just south of Rushville late Saturday night, but no one was injured. The details surrounding the accident were not learned but the car was damaged to the extent that it was brought to this city for repairs.

Still another accident, resulting in slight damage to both automobiles, occurred on the Milroy pike, just south of this city, when a Chalmers sedan belonging to George W. Root,

living south of this city, near Milroy, and driven by his son Roland, and a Ford touring car owned by S. Marron came together. The nature of the accident was unknown in this city but the Marron car was brought here for repairs. The left front wheel was torn completely off and the front fenders were bent. The front fender on the Root car, which was occupied by the driver and a girl friend, was damaged. None of the occupants was injured.

## PROGRAM GIVEN BY VACATION PUPILS

Continued from Page One

do not care for revival there is usually a deadness in the spiritual life of the people who constitute the church.

"The church needs seasons of refreshing. When there is great drouth it is said to be just on the margin of a refreshing shower. Seasons of refreshing are needed to give us new strength and stimulate us to fruit bearing. They are needed to help us to avoid religious narrowness, religious formalism. Revivals do not come by observing ceremonies but by thrusting the spiritual qualifications out into the resources of God."

## First United Presbyterian

The sermon at the United Presbyterian Church on Sabbath morning was by the pastor, the Rev. E. G. McKibben, and it was based on Hebrews 11:40—"God having provided some better thing concerning us."

The word "Better" is the keyword of the book of The Hebrews, he said "Christ is better than the angels. He is better than Moses. He is better than Aaron. The New covenant is better than the Old. So is the new hope, and the new sacrifice, and the new Country. The text suggests a comparison. The old was good; but the new is better." He continued in part as follows:

"The New Testament worship is better than the Old. It is not held down to particular places as was the old. Now, in every place, men can worship Father. Ten men must be present to make a lawful meeting of the synagogue. Jesus said 'where two or three are gathered in my name, there am I in the midst of the.' It is better as to ordinances. They brought material offerings and worshiped with sacrificial animals. We offer spiritual sacrifices, the things typified by their offerings—prayer, and praise and thanksgiving, etc. How simple is our worship, how spiritual how direct how fitting! Our method of approach to God is better. Through the rent veil we can come without the intervention of any priest. Every believer has direct access to God. It is better in the matter of economy. Old Testament worship was very expensive. The very best of the flocks and herds was burned to ashes on their altars. In the present dispensation not a thing of value is destroyed. Every dollar given to the church is a gift edge investment. The Church makes a community a desirable place to live in. Its absence would soon cause depreciation in the value of property."

"The New Testament is better in the matter of personal freedom. The law held in bondage. It said, 'Thou shalt and thou shalt not,' and it inflicted a penalty for disobedience. But now we have freedom. For freedom did Christ set us free.' It is said to be a glorious liberty. And we are exhorted to 'Stand fast in the liberty wherewith Christ has made us free.' You are no longer under tutors and governors. You have been promoted to the honor room. The ceremonial law has been abolished. The moral law is no longer held up as a condition of salvation, but only as a rule of life. If you tithe, it is not of law, but of grace. If you attend church it is of grace. If you worship God in the sanctuary or in your home it is of grace. 'You are justified apart from works of law.'

"The Old Testament was the bud. The New is the blossom. Now we are led by God's Spirit through the word. But Liberty is not license. A higher standard is required under grace than law. Are you a better man under grace than the Jew under law?"

Newcastle—G. M. Faust, president of the Faust Chemical Company of Chicago is planning to move his laboratories and factories to Newcastle. Aug. 1, Fifty persons will be employed. The company makes patent medicines.

Atlanta—Atlanta claims the "meanest thief." Vandalism looted the garden of A. G. Kauffman, postmaster. He had supplied the sick and funerals with flowers free of charge for years.

Alexandria—J. H. Woaman of Alexandria, believes in signs. He has them plastered all over his filling station.

## TAIL LIGHTS TAKE NEW PALESTINE 3-1

Sunday's Game Settles Down to Pitcher's Battle With Shaw Having The Edge

### RALLY IN NINTH STOPPED

Fast Double Play by Locals Wipes In Bad Effort of Visitors to Tie The Score

In one of the best games seen on the local diamond this season the local Tail Lights defeated the fast New Palestine team by the close score of 3 to 1.

The game was a pitcher's battle throughout with Shaw, the Rushville pitcher, having a comfortable margin over Lee, the visiting pitcher. Shaw struck out ten New Palestine batters and only allowed five hits while Lee struck out seven local men and allowed eight hits.

The only run that was scored by New Palestine came as a result of a walk, hit and an error in the seventh inning. New Palestine threw a scare into the local ranks in the ninth when the first man up singled and stole second, but a fast double play by Joyce to Bennett to McCarty killed the rally.

The game was featured by many brilliant plays. Max Pearsey pulled two of the finest catches made this year and also made Rushville's first run with a drive over the fence in the second inning. Good catching by

Byrne, and fielding by Castles, Joyce, Bennett, and McCarty were also features.

The locals will play the Taylor A. B. C.'s of Indianapolis here next Sunday. A good crowd was out Sunday. Support the local team and the best talent in the state will be brought here, the management of the team says.

## KNIGHTSTOWN MAN WINS THE FORD RACE

Bundy, Circles Mile Track 25 Times in 30 Minutes and 46 Seconds—Two Horse Races

### TWO DAY MEETING ENDS

The two day race meeting closed Saturday afternoon at the mile track south of Rushville, with two horse races and an automobile race. One of the trotting events did not fill. Close finishes and good time featured the last day's races.

The 25 mile automobile race for Ford Stock cars was won by Bundy of Knightstown, making the race in 30 minutes and 46 seconds. Hines of Rushville finished second, Hall third and Henthorn, fourth. There were six starters in the race.

Hall led for the first 11 miles, and then dropped back to third, where he remained until the finish. Bundy came from fifth place at the start, gradually climbing and finished 5 laps ahead. Although only four finished, Ziegler dropped out at the end of the fifth lap and Walker went as far as the ninth. The race was a good one, and held the attention of the large crowd.

Hall won the first lap prize by reason of leading on eleven laps. Bundy was second in the lap prize contest, leading in five laps, and Hines won the third prize by winning in four laps.

### Chiropractic Health Talk No. 217

By H. V. McCully, D. C., Ph. C.

The time of the year has arrived that so many people hate to see because it means either leave home for northern points or pass through a siege of so called Hay Fever.

The only ones who suffer from this malady are those who have nasal passages that are inflamed and over-sensitive. This condition is due to a lack of nerve supply to the nasal membrane, caused by a pressure on the spinal nerve as it leaves the region of the neck.

The pollen from plants or other substance, so prevalent in the dust laden air of summer, coming in contact with the already inflamed nasal

lining starts the sneezing and all other symptoms so well known to all of you who are sufferers.

We locate the pressure on the nerves which supply the membrane lining the nasal passages and remove it. The membranes heal and are not irritated by the pollen or other irritating substances.

## Rejected

Because her sweetheart, George Henry Clay, was serving with the United States navy in Chinese waters, Miss Jackie Van Diver, 22, of Davison, Ky., went to Cincinnati in men's clothes and tried to enlist as a sailor. When her sex was discovered, recruiting officers took up a collection to send her back home.

## After your Generals have run 10,000 miles

After your Generals have run 10,000 miles it will pay you to drive to the store and let us look them over. Big mileage puts nicks and other injuries in tires and by giving attention to these spots we can often add many months of service to the further mileage that is left in the tires. Even when you trade in your car each year the extra mileage in General Cords is not lost to you, because tires in good condition add that much more to the trade-in value of your car.
